What Is A Media Kit?

A Media Kit is your Page's professional resume. When a brand, sponsor, or collaborator wants to work with you, they ask for this ONE file to decide in 2 minutes. It answers: Who are you? Who follows you? What do you post? How can brands work with you? And what does it cost?

This Media Kit includes everything a brand needs — About, Audience, Content Pillars, Services, Past Content Examples, Collaboration Options & Rates.
